

## SCIENTIFIC PROGRAMME

### Thursday 6 September 2010

- **Key-note lectures**

Welcome address. Update in Abdominal and Urogenital Imaging

*B. Claikens*

State of the Art MR and CT Imaging of Liver : Primary and Metastatic Liver Tumors

*P. Ros*

Hepatocellular carcinoma: the multistep process

*C. Bartolozzi*

Body MRI : fast, efficient and comprehensive

*R. Semelka*

Interventional Oncology of liver metastases : thermal ablation and local chemotherapy

*T. Vogl*

Diffusion imaging of the liver

*F. Deckers*

Hepatic Tumor response after interventional treatment

*C. Bartolozzi*

CT/MRI Imaging of benign liver tumors

*B. Op de Beeck*

MRI of the bile ducts

*L. Van Hoe*

Imaging of the Spleen

*F. Vanhoenacker*

Update in Abdominal ultrasound

*E. Danse*

US of acute abdomen

*J. Puylaert*

Interactive Case Discussion

*Panel*

- **Congress Workshops and Company Sponsored Workshops**

- Case Studies
- Quiz

## Friday 7 September 2010 A.M.

- **Key-note lectures**

Pancreas neoplasms

*P. Ros*

Imaging and management of cystic pancreatic lesions

*K. Mortele*

Imaging inflammatory conditions of the pancreas

*K. Mortele*

Imaging of mesenterium, omentum and peritoneal cavity

*L. van Hoe*

Imaging of abdominal and retroperitoneal soft tissue tumors

*F. Vanhoenacker*

Interactive Case Discussion

*Panel*

The forgotten abdomen

*P. Ros*

Current status of CT-colonography and pitfalls

*P. Lefere*

The role of US in appendicitis and diverticulitis

*J. Puylaert*

Inflammation and obstruction of the urinary tract

*J. Fielding*

Imaging of acute abdominal pain in children

*F. Avni*

MRI / CT PET in the Abdomen

*P. Ros*

Imaging of renal and adrenal tumors

*R. Semelka*

Interactive Case Discussion

*Panel*

## Congress Workshops and Company Sponsored Workshops

- Case Studies
- Quiz

## Saturday 8 September 2010 A.M.

- **Key-note lectures**

Gynaecology Imaging : The Essentials

*J. Fielding*

Imaging and interventional treatment of benign uterine tumors

*B. Hamm*

MRI of cervixcarcinoma : staging

*G. Villeirs*

MR Imaging of cervical cancer : detection of recurrence

*B. Hamm*

Imaging of the prostate : diagnosis and staging

*G. Villeirs*

MRI of the prostate

*J. Futterer*

MR guided biopsies of the prostate, an update

*J. Vogl*

Imaging of rectal tumors.

*F. Deckers*

MRI of perineum and pelvic floor

*D. Vanbeckevoort*

Interventional Vascular Procedures in the Abdomen

*To be announced*

Interactive Case Discussion

*Panel*

Results of the Quiz and Prize Ceremony

Farewell and closing remarks

*P. Ross, P. Van Wettere, B. Claikens*

## SOCIAL PROGRAM

**Welcome Reception**                      Thursday, 6 September: 18h30

**Congress Dinner**                        Friday, 7 September : 20h00
